

THE PROFESSIONAL'S CHOICE SINCE 1974

PROJECT PROFILE

Courtyard Marriott

Energy Efficiency at its Best.

This project showcases Omega's best EIF System. AkroFlex Water Managed Plus System includes AkroGuard – Omega's liquid applied air & water-resistive barrier – to further increase moisture protection and energy efficiency of the building. In addition, this project features 4" thick EPS giving the exterior walls an outstanding 16 R value. This light weight system is ideal to combine energy efficiency, design versatility and keep the construction costs down.
