OMEGA CRETE

VERTICAL CONCRETE FINISH COAT

A premium, one component, polymer-modified cementitious coating designed to create a clean, uniform, smooth finish on poured-in-place, tilt-up, precast, or other concrete surfaces.

- Cures to become an integral part of the wall.
- Easy to apply with excellent workability, good sandability, and simple clean up using water.
- Maintains the wall's durability and breathability.

Coverage

Approximately 100 ft² (9.3 m²) at a 1/16-inch coat. Coverage may vary due to ambient temperature, surface temperature, surface porosity, mixing methods, and/or application methods.

Packaging

Moisture resistive,
50lb (22.7kg) bags
or 5 gal. pails

Color

Light Grey / Cement
